

# 21 DIAMONDS

## 1. Print.

Check the print size: the above line should measure 10 cm (+/- 1mm). If not, be sure that you are printing out at 100% scale in A4 portrait, rather than using the 'scale to fit page' or 'shrink to fit page' options.

## 2. Cut out.

Fold the sheet along the dotted lines and cut out the semicircles. Now you can work out which size fits your finger best.

Alternatively, if you have a well-fitting ring available, lay it on the circles to work out its internal diameter – this will give you the ring's size. Be sure to find the circle which completely fills the inside of the ring without overlapping.

## 3. Order your ring.

Now that you have the correct size, you can order your jewellery.
